## WORK EXPERIENCE

### DIGITAL CRAFTS

Atlanta, GA

Full-stack Web Development Cohort

Feb. 2018 - Jan. 2022

- Demonstrated coding proficiency in JavaScript to build full-stack web applications.
- Utilized back-end technologies such as Node.js, Express framework, PostgreSQL, and Sequelize Object-Relational Mapping (ORM) for development of RESTful APIs.
- Developed front-end user-oriented web design skills through practical utilization of React.js, HTML, CSS, Bootstrap & Tailwind frameworks resulting in the creation of visually appealing and interactive interfaces.
- Worked effectively in a team development environment, employing agile workflow methodologies.
- Employed Test Driven Development by utilizing libraries such as Jest and Supertest.
- Applied modern languages, frameworks, and libraries to develop industry-relevant applications, showcasing adaptability.

### E\*TRADE

Alpharetta, GA

Senior Stock Plan Specialist

Feb. 2018 - Jan. 2022

- Acted as a liaison with employee stock plan participants.
- Thrived in a fast-paced, detail-oriented environment to achieve outstanding performance and efficiency.
- Provided education on stock plan awards such as stock options, restricted shares, and ESPP plans.
- Brokered transactions involving employee equity awards and explained tax implications.
- Formulated and delivered solutions for participant inquiries, ranging from foundational guidance to complex product-related questions.
- Engaged with clients across the participant lifecycle, introducing additional wealth and liquidity solutions where appropriate.

### TradeStation Securities

Chicago, IL

Senior Account Executive/Broker

2012 - 2016

- Utilized exceptional sales skills & articulation of company value to acquire new brokerage clients through multiple sales channels.
- Obtained numerous high revenue generating VIP clients and maintained long term relationships.
- To make your resume flow, read it over. Check and see if it is easy to read with no overflowing of text. You should avoid the usage of different colors, multiple fonts, pictures, and brief/too dense information. Your resume should show who you are while being professional.

## SOFTWARE DEVELOPMENT SKILLS

- JavaScript, HTML, CSS, React, Node.js, Express, PostgreSQL, Sequelize, Bootstrap, Tailwind, Jest, Supertest
